Dear Mike,

On behalf of all of us here at Burrell Professional Labs, thank you for speaking at our Presidential Circle Symposium on January 12, 2004. You and "Jackie-O" presented an informative, entertaining, and inspiring program with memorable enthusiasm and energy. We were thrilled to hear many complementary and positive comments regarding you and your presentation throughout the entire Symposium. The "behind the scenes" staff at Burrell Professional Labs also appreciated the way you created an atmosphere of excitement and enlightenment as you jumped into your program and captured the interest and attention of all in attendance.

When hiring a guest speaker, our goal for the Presidential Circle event is always to provide talent "above and beyond" what our customers are accustomed to at their local events and conventions. Your program certainly fit the above and beyond category we were striving to deliver.

All of us at Burrell Professional Labs, staff and customers alike, were very satisfied with the knowledge and thought provoking ideas you shared with us at the 2004 Presidential Circle Symposium. We also appreciate the way you customized your presentation to target the audience at hand, and we felt it imperative to express to you a collective and sincere thank you.

Sincerely,

Steve C. Metz
Manager of Corporate Events
