Hi Bob,

Just a quick note to say thanks so much for the outstanding keynote presentation last week. You and Mike were great. You guys totally exceeded our expectations! In just one hour, you set the tone for our entire meeting. Following your address, no matter who was presenting, or what was on the agenda, somehow your lessons and/or presentation were referred to, or woven into the remainder of the meeting.

I heard so many comments regarding how much you knew about FPL - "Who is this guy? How does he know so much about our business?" They were thoroughly impressed (as was I - you were quoting names and numbers better than I can!).

Our team really took away some valuable lessons. Wish you could have heard the breakout session results. They came back with some interesting and creative ways to utilize checklists and cross checks in our daily operations. And I think by the second day, everyone was calling each other by their new "handles" - I had no idea these guys would embrace that so completely!

Bob, it was truly a pleasure meeting and working with you. I have a feeling Afterburner Seminars will be back at FPL!

Best regards,
